Re: COVID Employee Matter

At lunch today, we were notified that a Village employee was briefly exposed to an individual outside of Fox Point who has tested positive for COVID. The exposure of this employee was brief and in compliance with the 6-foot social distancing recommendation.

Following consultation with the North Shore Health Department, we are exercising an abundance of caution and requiring the employee to self-quarantine for 14 days starting today.

It is our belief that no citizens were exposed to this employee, who, it should be clear, appears healthy and has not tested positive for the virus. Per policy, the employee will be required to be tested prior to returning to work.

The safety of our employees and citizens is paramount, and so as to be transparent and eliminate any possibility of misinformation in the community, we are making this public statement.
