

VILLAGE OF FOX POINT

MILWAUKEE COUNTY

WISCONSIN

VILLAGE HALL

7200 N. SANTA MONICA BLVD.

FOX POINT WI 53217-3505

414-351-8900

FAX 414-351-8909

To: The Honorable Members of the Fox Point Village Board

From: Scott A. Botcher, Village Manager

Date: August 6, 2021

Re: **Administrative Report for the Week Ending August 6, 2021**

ADMINISTRATION

1. Village Board meeting agenda and packets were prepared for next Tuesday, August 10, 2021 7:00 p.m. meeting.
2. 2020 Final Tax settlement was prepared for Milwaukee County Treasurer's office to be sent electronically next week by August 10, 2021.
3. Board of Appeals meeting was held on Wednesday, August 4, 2021 at 5:00 p.m. to hear Case 2021-06.
4. Village Manager completed second interviews with Assistant Village Manager candidates.

DEPARTMENT OF PUBLIC WORKS

1. The public information meeting for the Beach Drive Coastal Resiliency project was held on Thursday evening. The meeting was well attended with about a dozen in person attendees and about 20 virtual attendees. More information about the project can be found on the Village website (<https://www.villageoffoxpoint.com/631/Beach-Drive-Coastal-Resiliency-Project>). A link to the Zoom recording from last night's meeting will be posted to the website the week of August 9. Residents are encouraged to review the information and submit comments to staff prior to the end of August.
2. Staff continues to be busy coordinating the lead water lateral replacement project and the sanitary sewer riser and lateral rehab project. Both require property owners to sign a handful of documents (easements, waivers, etc.) before the work can be performed.
3. Work continues on the 2021 Road and Utility project. Some residents on Goodrich have agreed to pay for paving a section of their private road and staff is coordinating the signatures so that they can reimburse the Village for the costs of the work. Regent is scheduled to be milled next week and paving is anticipated to begin the week of August 16 or 23. Santa Monica work will follow the work on Regent.
4. Water Utility staff is busy with locates (as our work continues and contractors are in town installing fiber optic cables), performing cross connection inspections, and working with the contractors at Maple Dale and Fox Point Lutheran on the installation of hydrants on or near the properties.

5. DPW staff continues to be busy with yard waste, rubbish and other normal activities. Staff have also been constructing new end walls on culverts as part of the road reconstruction project, eradicating wasp nests, and attending to the pool. The wading pool is shut down for the season.
6. The mechanics repaired Packer 15 and have that back up and running. The oil pump blew out and we are working with Cummins as the hole in the oil pump is a quite unusual circumstance. They also performed a PM on the tandem and on other vehicles.
7. Staff met with Kapur & Associates regarding the Lake Drive project. They are intending to make a presentation to the Village Board at the September meeting and hold a public information meeting in October. Information regarding this project is also on the Village website and regular updates (<https://www.villageoffoxpoint.com/626/Lake-Drive-Road-Resurfacing-Project>).

POLICE DEPARTMENT

1. Officers responded to assist residents who are engaged in a legal separation and were separating property. The officers assisted the residents to prevent the matter from becoming disorderly.
2. Officers responded to assist the Garden Club after members noted plants had been taken from the median on Santa Monica without permission. The club will be replacing the items.
3. Officers attended neighborhood block parties to meet with residents and provide demonstrations of squad cars / equipment to children.
4. Officers responded with North Shore Fire Rescue for a report of an unresponsive person. Officers assisted the persons breathing and administered Narcan for a possible opiate overdose. The person was subsequently transported to the hospital by North Shore paramedics for further treatment.
5. Officers responded to a report of a dispute that resulted in the arrest of one person for battery related to a domestic dispute. The case was referred to the district attorney for review and charging.
6. Officers responded to a report of a package theft. The officers met with the resident who reported that the package was listed as delivered but they never received the package.
7. Officers responded to assist Glendale police with traffic control at a vehicle fire (Calumet and Port Washington).
8. Officers participated in the combined North Shore National Night Out held in Brown Deer Park.

NORTH SHORE HEALTH DEPARTMENT

North Shore Health Department Highlights 08/03/2021

Highlights 08/03/2021: NATIONAL BREASTFEEDING MONTH

This year's theme is Every Step of the Way, which highlights the shared vision of a world in which every family is supported to breastfeed at every step of their infant feeding journey.

Breastfeeding provides many health, nutritional, economic, and emotional benefits to both the mother and infant, including a reduced risk of certain health conditions for both. There are also significant benefits to the community, workplace, and the environment. The American Academy of Pediatrics recommends that infants be exclusively breastfed for the first six months of life. Continued breastfeeding, with the gradual addition of appropriate complementary foods, is recommended for the remainder of the first year and for as long as mother and child desire.

Breastfeeding is the best source of nutrition for most infants. Research has shown that being breastfed can lead to a healthier life for babies. The National Institute of Health lists many benefits of breast feeding, including:

- Protection against many common infections
- Nutritionally balanced meals
- Better survival for the first year of life

In addition to these benefits, breast milk has also been found to include many nutrients, vitamins and antibodies which contribute to the development of everything from babies' immune to digestive systems.

The North Shore Health Department provides newborn home visits by a Public Health Nurse who is also a Certified Lactation Counselor. During this visit, the nurse/CLC discusses topics such as home safety, immunizations, nutrition, and healthy growth and development. Home visits provide the chance for new parents to ask questions and discuss newborn health and development. Call our office at 414-371-2980 to schedule a newborn home visit and/or lactation consultation.

The North Shore Health Department also recognizes childcare centers and workplaces as breastfeeding friendly establishments when these places meet certain criteria to support breastfeeding at their location.

More information is available on our website:

<http://www.nshealthdept.org/FamilyHealth/BreastfeedingGeneral/BreastfeedingFriendlyWorkplaces.aspx>

and

<http://www.nshealthdept.org/FamilyHealth/BreastfeedingGeneral/BreastfeedingFriendlyChildCare.aspx>

WHAT HAS THE NSHD BEEN WORKING ON?

- **National Night Out – Tonight**
 - August 3, 2021, from 5:00 pm to 8:00 pm, we will be joining many other organizations at National Night Out.
 - Join us at the Brown Deer Village Park (4920 W Green Brook Dr., Brown Deer, WI 53223)
 - Our student nurses will be presenting information about the Deterra Drug Deactivation System (see below for more on the system)
 - Stop by and ask NSHD staff about public health
- **Updated Mask Recommendations:** Attached is a graphic we created and shared last week regarding mask recommendations and community transmission. The goal is to update the graphic weekly, on Wednesdays.

The North Shore Health Department is aligning with the Centers for Disease Control (CDC) and recommending that everyone in areas of substantial or high community transmission should wear a mask indoors in public, even if they are fully vaccinated.

The CDC recommends that in areas of substantial community transmission (orange) and high community transmission (red), everyone wear a mask when indoors in public, including those who are fully vaccinated. Community transmission is measured by two indicators:

1. Total new cases per 100,000 persons in the past 7 days
2. Percentage tests that are positive during the past 7 days

COVID-19 VACCINATIONS

Currently, we are *not* providing COVID-19 vaccinations; however, please reference the two lists below (subject to change) that provide vaccine schedules and testing locations.

Another option is to contact your local Walgreens or Meijer, who often have same day availability.

- TESTING-VACCINE Sites Summer 2021 (*ATTACHED TO EMAIL*)
- Health Connections Inc.'s Mobile COVID Vaccine Clinic Schedule - AUGUST 2021 (*ATTACHED TO EMAIL*)

Back to school is just around the corner, in addition to all the upcoming activities in the area. If you haven't already, now is a good time to get your COVID-19 vaccination. Depending on vaccination manufacturer, it can take up to 6 weeks for full immunity.

- J&J: 1 dose, full immunity 2 weeks after vaccination (no second dose, 2-week period only).

- Pfizer: 2 doses, spaced 21 days apart. Full immunity 5 weeks after first dose (3 weeks + 2 weeks).
- Moderna: 2 doses, spaced 28 days apart. Full immunity 6 weeks after first dose (4 weeks + 2 weeks).

We also have a list of vaccination clinics on our home page: [Home \(nshealthdept.org\)](http://nshealthdept.org)

DETERRA DRUG DEACTIVATION SYSTEM

Through a Wisconsin Department of Justice grant, North Shore Health Department can provide Deterra drug deactivation bags for distribution to community partners and organizations. Through this collaboration, community partners and organizations can further distribute bags to those in need of a safe way to dispose of medications.

Deterra drug deactivation bags are a safe and convenient way to dispose of unwanted or expired medication. More information is available on their website:

<https://deterrasystem.com/products/pouches/>.

We have small, medium, and large pouches, which are sized based on the number of pills, patches, or liquids/gels they can effectively deactivate.

- If you are a community partner or organization interested in receiving some bags to distribute, please contact us at 414-371-2980.
- Individuals who would like a safe way to dispose of expired and/or unwanted medication are encouraged to connect with us, by calling 414-371-2980 or stopping by our Brown Deer office at 4800 W Green Brook Dr (in Brown Deer Village Hall).

IN CASE YOU MISSED IT, HERE ARE SOME ON-GOING HIGHLIGHTS TO NOTE:

Our nurse supervisor, Kathleen Platt, continues to serve as our interim Health Officer.

NORTH SHORE HEALTH DEPARTMENT NEWSLETTER

The Summer 2021 Newsletter can be found by visiting:

<https://mailchi.mp/5bab5f054464/summer-2021-newsletter-from-nshd-4925098>

WISCONSIN IMMUNIZATION REGISTRY

Last week we provided information on accessing immunization records. As more and more individuals ask for the information, those vaccinated in Wisconsin can visit [Public Immunization Record Access webpage](#) for their vaccination records.

BEACH ADVISORIES

Please check our social media for beach advisory announcements. Current Beach status can also be found at: <https://dnr.wisconsin.gov/topic/Beaches>

IMMUNIZATIONS (APPOINTMENT REQUIRED)

We provide vaccinations for individuals who are underinsured or uninsured.

Please call us at 414-371-2980 to find out what vaccines we have available and to make an appointment.

UPCOMING BLOOD PRESSURE SCREENING (WALK-INS WELCOME – NO APPOINTMENT NECESSARY):

- **NSHD Shorewood Office:** 2010 E Shorewood Blvd. On the 4th Wednesday of the month from 3:30 p.m. to 4:30 p.m. starting on July 28th.
- **Lydell Community Center:** 5205 N Lydell Ave, Whitefish Bay. On September 14, October 12, November 9, and December 14 from 1:00 p.m. to 2:00 p.m.
- **Lois & Tom Dolan Community Center:** 4355 W. Bradley Rd, Brown Deer. Typically, on the first Wednesday of the month from 12:15 p.m. - 1:00 p.m. HOWEVER, the August clinic is on August 18th, rather than on August 4th.

Please visit our website for more up-to-date information about BP Screenings:

www.nshealthdept.org/Clinics
